

Project Demo Planning

Date	9 july 2026
Team ID	XXXXXXXX
Project Name	Smart Agricultural Production Optimization Engine
Maximum Marks	1 Mark

Project Demo Planning

A well-structured demo plan ensures that the team presents the project effectively, covering all key aspects in a clear and organized manner. This document outlines the plan for demonstrating the project, including the flow of the demo, key features to highlight, and responsibilities of each team member.

S.No	Demo Section	Description	Duration (mins)	Responsible Member
1	Introduction	Explain the problem statement, objectives and project overview.	2	Team Member 1
2	Dataset & Preprocessing	Describe dataset, preprocessing, outlier handling and feature preparation.	3	Team Member 2
3	Model Building	Explain KMeans clustering, Logistic Regression, training and evaluation.	4	Team Member 3
4	Live Prediction	Demonstrate crop prediction using user inputs in the Flask application.	4	Team Member 4
5	Application Features	Show Home, About and Find Your Crop pages and prediction output.	2	Team Member 1

6	Conclusion	Summarize benefits, future scope and answer questions.	2	Entire Team

Demo Flow Summary

Step	Activity	Notes
1	Introduction & Problem Statement	Introduce Smart Agricultural Production Optimization Engine and objectives.
2	Solution Overview	Explain architecture, dataset and machine learning workflow.
3	Live Feature Demonstration	Show user input, crop prediction and output in the Flask web application.
4	Q&A Session	Answer evaluator questions and discuss future enhancements.
